FLU CAMPAIGN

It is still not too late to have your flu injection. If you are over 65 years of age, or have a chronic condition that entitles you to receive a flu vaccination, please speak to one of our receptionists who will be happy to arrange you an appointment.

PRESCRIPTIONS OVER THE FESTIVE PERIOD

Did you know that medicine wastage costs NHS Fife over £2,000,000 per year? We are grateful to patients for helping reduce the wastage of medication by only ordering the medication they require. Please be organised over Christmas and New Year by ensuring your medication is ordered in plenty of time but please do not double up your prescription order as pharmacies are open over the festive period.

TEST RESULTS

Please note, we will not contact you regarding your results if no action is needed. If you need more information on how long your test results are likely to take to come back from the hospital please ask the nurse.

You do not need to ring the practice for results. We will contact you if there is a problem.

Please make sure your telephone number is up to date at all times.

We have recently upgraded our text messaging service to provide you with a better service. Some patients may have noticed this already when they were reminded about our influenza clinics. We will be making full use of our text messaging software to keep our patients informed about important practice information. However, we need your help to ensure this service is used to its full advantage. Please provide the practice with your mobile telephone number in order to use this service. You can now cancel appointments too by replying CANCEL to your text reminder regarding any appointments you have made. If we have an email address for you, you should now be receiving appointment reminders via email also.
**APPOINTMENTS ISSUED AND DNA RATE**

In the past 3 months, we have had a total of **130 DNA** (did not attend) appointments. We kindly ask that any appointment which is no longer required is cancelled in order to allow another patient the opportunity of using that appointment.

**SEPTEMBER** – 1939 GP appointments, 87 house calls & 349 telephone consultations

**YOU SAID, WE LISTENED, WE ACTIONED 2017**

Throughout 2017, a number of suggestions had been provided by patients using our feedback forms. Your feedback helps us to improve the service we offer to you. The following suggestions have been actioned by the practice to provide you with a better service:

- Purchase of a centrifuge machine to provide you with the option of having blood samples taken in the afternoon
- Email reminders regarding your appointments
- The ability to cancel appointments via text
- An increase in the number of emergency appointments available
- An increase to the number of telephone lines coming into the practice with a call queuing system to advise you where you are in the queue
- An increased number of options on our telephone selections to enable you to request prescriptions rather than having to dial a separate number.

**MAY WE WISH YOU A VERY MERRY CHRISTMAS AND A HAPPY, HEALTHY, NEW YEAR**
